

Submit contributions

Authors are kindly invited to submit a paper that addresses the theme of INTERPRAEVENT 2024: "Natural hazards in a changing climate – How to manage risks under global warming?", and one of the six thematic topics (sessions).

The most relevant and qualitatively outstanding contributions will be invited as oral or poster presentations at the conference. All accepted contributions will be published in electronic form.

Timetable for submission and Student Award

Call opens 1 June 2023

Call closes 1 November 2023

Notification of decision 19 January 2024

For further information, please visit the conference website:

Research Society INTERPRAEVENT

INTERPRAEVENT was founded in 1968 in Klagenfurt (Austria). It is considered to be "the expert network for the protection from natural hazards". The research society ensures a constant international exchange of knowledge and contributes actively to the further development of the preventive protection against natural disasters.

Scientific and technical advisory board:

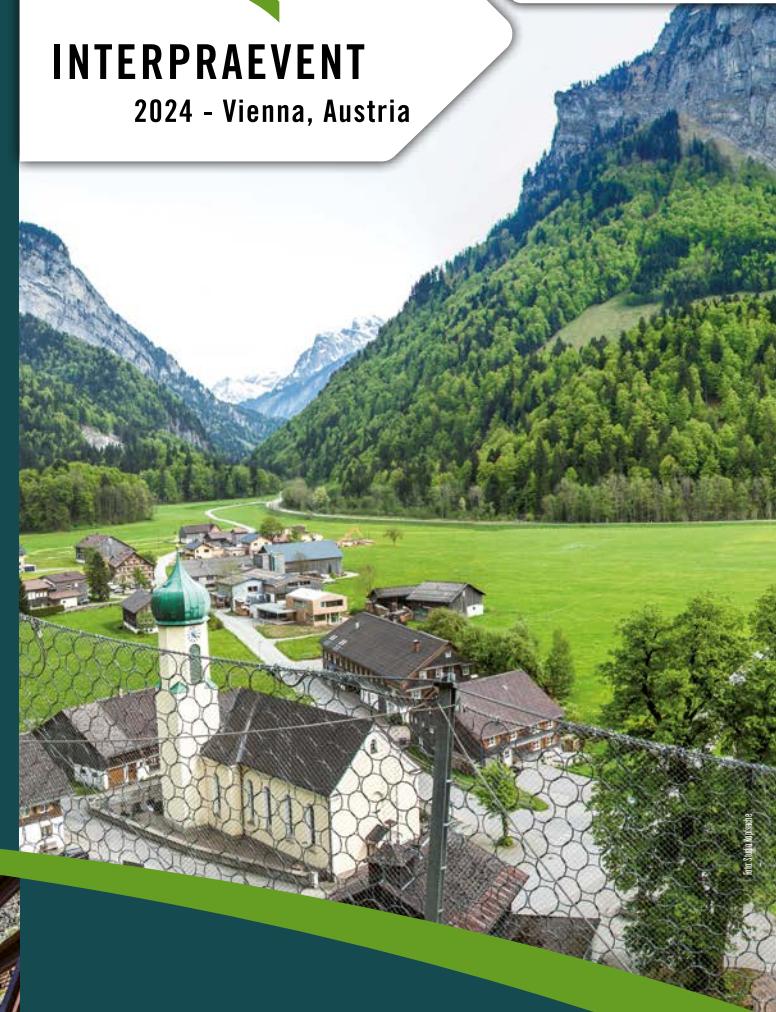

- BEYER PORTNER Niki, Switzerland
- COMITI Francesco, Italy
- FISCHER Jan Thomas, Austria
- HILLER Priska, Norway
- HÜBL Johannes, Austria
- KOBOLTSCHNIG Gernot, Austria
- LAIGLE Dominique, France
- MARGRETH Stefan, Switzerland
- MAYER Karl, Germany
- MIKOŠ Matjaž, Slovenia
- OLEFS Marc, Austria
- RICHARD Didier, France
- RUDOLF-MIKLAU Florian, Austria
- SCHNEIDER Josef, Austria
- SIMONINI Paolo, Italy
- STOFFEL Markus, Switzerland
- UCHIDA Taro, Japan

INTERPRAEVENT

2024 - Vienna, Austria

June 10th – 13th, 2024
Conference Center Hofburg
Vienna / Austria

NATURAL HAZARDS IN A CHANGING CLIMATE

HOW TO MANAGE RISKS UNDER GLOBAL WARMING?

Science meets practice

The international conference **INTERPRAEVENT** connects science and practice and provides a platform for an intensive professional discussion on experiences from practice, the latest developments and scientific innovations. Decision-makers gain insight into essential adaptation strategies in natural hazard and risk management.

To support young experts the **Student Award** is part of the conference, encouraging the exchange of thoughts and ideas from the next generation of natural hazard experts.

A **poster exhibition** and **various excursions** to the natural hazard and risk management will complete the conference.

The conference is simultaneously interpreted into English and German.

Natural hazards in a changing climate

Global warming and its massive impact on natural disasters is one of the main challenges of our era. Traditional concepts of hazard prevention or disaster management are outdated since climate change requires sustainable adaptation processes for the protective system.

INTERPRAEVENT 2024 is addressing this issue under the overall theme **“Natural hazards in a changing climate – How to manage risks under global warming?”** Participants can expect six thematic sessions:

- Climate Change: Drivers, Triggers and Consequences
- Risk Governance, Policies and Resilience
- From Observations and Experiments to Modelling and Simulations
- Hazard and Risk Assessment
- Structural and Non-Structural Mitigation Measures
- Emergency Management and Recovery

Venue:

Conference Center Hofburg,
Heldenplatz, 1010 Vienna, Austria
